

“You can teach students a lesson for a day; but if you can teach them to learn by creating curiosity, they will continue the learning process as long as they live.”

Clay P. Bedford

2016 Northrop Grumman Teacher Awards

Each day, great science teachers guide, encourage, and motivate students. Teachers impress curiosity in their students, which enables growth and learning.

The Science Fair Teacher Award Committee is recognizing twenty teachers for their dedication and commitment to students. These top teachers were selected by the number, performance, and success rate of their students at the fair.

Northrop Grumman and the DRSEF are proud to honor these teachers.
